The Ad Hoc Committee on the Status of Women met Friday, September 20. Attending in addition to myself were members Margot Hasha and George Wooddell. Absent was Héctor Lasala, and attending as a guest was Judy Gentry.

George reported that he is now making good progress on receiving data for the salary study proposed some time ago. This project had been stalled under the former interim provost. Current leadership is more forthcoming.

Margot described her ongoing project on the prevention of rape and other forms of sexual violence on and around campus. This is an exciting and multi-pronged project that could make UL Lafayette a leader in his area. Details forthcoming, as we are in the process of securing campus and community partnerships as well as external funding.

Respectfully submitted,
Leslie Bary
